The Advisor actively manages expenses in an attempt to provide a lower actual expense ratio.

The performance data quoted represents past performance. Past performance does not guarantee future results. The investment return and principal of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost, and current performance may be higher or lower than the performance quoted. Total return assumes reinvestment of dividends and capital gains.

The S&P 500 Index is a broad based, unmanaged index of 500 stocks which is widely recognized as representative of the equity market in general. The FTSE KLD 400 Social Index is a float-adjusted market capitalization weighted common stock index for equity portfolios subject to multiple social screens. The Barclays Capital US Aggregate Bond Index is a market-capitalization-weighted index of investment-grade, fixed-rate debt issues, including government, corporate, asset-backed, and mortgage-backed securities, with maturities of at least one year. The Barclays Capital Intermediate US Government/Credit Bond Index is a market-value-weighted performance benchmark for government and corporate fixed-rate debt issues with maturities between one and ten years. The BofA Merrill Lynch 3-Month US Treasury Bill Index measures monthly return equivalents of yield averages that are not marked to market. The Index is an average of the last three 3-Month Treasury Bill issues. The BofA Merrill Lynch 1-3 Year US Treasury Index is a market-value-weighted index of US Treasury securities with maturities of 1-3 years. You cannot invest directly in an index. Standard Deviation is a statistical measure of the volatility of a range of values. The higher the value, the greater the potential for deviation from expected returns.

The Funds listed above are a series of the CNI Charter Funds™ (the "Trust"), a group of mutual funds sponsored by City National Bank, a wholly-owned subsidiary of City National Corporation.
